

Based on the given data, I need you to do the following:

1. Create a pie chart representing the top six (6) states when it comes in sales for the year.
2. Create a graph chart each of the top three (3) states when it comes in sales from the every quarter of the month.
3. On another Dashboard, create a line group of sales each month, per state.
4. On another Dashboard, create a line graph of quarterly sales, per state.
5. Add 1 more dashboard that is deemed useful based on your own analysis.
6. Screenshot the following graphs and paste in a document. Provide clear summaries for each graph as well.
